Let's discuss in our meeting tomorrow. Next Thursday will be a busy day for us and it may be better to defer to another meeting, maybe in June, esp. as we may have more to share.

This is a pretty late request for participation at a RWQCB.

John Lyons

As suspected, here's my invite to the May 13 RWQCB meeting. While the focus is supposedly on PV Shelf, they note that there may be questions about Ocean Dumping (see my highlight). So let's discuss this during our meeting tomorrow.

Thanks, John

Subject: Los Angeles Water Board Meeting next week

Mr. Chesnutt,

My name is Cris Morris and I am a Section Chief at the Los Angeles Water Board. At our Board Meeting next Thursday (5/13) we have an item (No. 11) for the Los Angeles County Sanitation District to present their Special Study Proposal for the Joint Outfall System. Since part of this Special Study involves the Palos Verdes Shelf superfund site, we would very much appreciate it if you could virtually attend this meeting in case any of the Board Members have questions regarding the Palos Verdes Shelf superfund site. We also anticipate that they may have questions concerning the DDT Ocean Dumping and that you would be the best person to be able to answer those questions as well.

Could you please let us know whether you will be able to attend? I am hoping that this item No. 11 will be right before lunch, but I can't anticipate how long each of the previous items will take. If you are able to make it, please sign up to be a potential speaker via the link below.

[Remote Meeting | Los Angeles Regional Water Quality Control Board \(ca.gov\)](#)

If you have any questions, please let me know.

Regards,

Cris Morris, PE, PMP
Watershed Regulatory Section Chief
Regional Water Quality Control Board
